Please use the following screenshots (below) and the following credentials to connect to the OSHKOSH file transfer system. If you have a Reliance account, the same password you create for MOVEit will be the same for Reliance.

Be sure to follow the document and select the green “Try Single Sign-on with SAML” button at the bottom of the log on page.

The following password requirements are as follow:
- Must be 8 characters, or more
- Cannot start with special character
- Must contain at least 1 letter, 1 uppercase letter, 1 number, and 1 special character.

Please follow this instruction for your first-time access to MOVEit.

1) Access the MOVEit link (https://sftp.oshkoshcorp.com) – DO NOT enter your user ID and password on this screen!
2) Click on the green, rectangular “Try Single Signon with SAML” button underneath the credentials
3) Green button auto-signs you in and a MOVEit screen is displayed
After clicking **Try Single Signon with SAML**, you’ll be transferred to Azure sign in, enter your email address. This will start the process of creating and activating your new account.

Set your own password and display name.

Set up your account with Microsoft

You’ll use it to access resources in the Oshkosh Corporation organization, and applications from Microsoft.

**username:**
guesttest20@flakafamily.com

**password:**
********

**8-character minimum; case sensitive.**

**display name:**
guesttest20

**Next**
Once you have set your password and display name you will be required to verify your account via a code send in email as shown above. **Check your spam folder**

From: Microsoft Invitations <invites@microsoft.com>

Subject: Verify your email address to complete the sign up process.
To: <hidden>

Please use the following verification code to verify your email with Microsoft:

606648

If you didn't request this code, you can safely ignore this email. Someone else might have typed your email address by mistake.

Thanks,
Microsoft

Enter the code from the email on the verification page

Set up your account with Microsoft

Check your email for your verification code. Didn't get the email? Check your Junk folder or try again.

Verification code

Note: when you use a work or school email address to set up an account with Microsoft, your IT department may later control your data and restrict what you can do with your account.

By clicking Finish you agree to the Privacy Statement and Microsoft Services Agreement.
To reset your password for Azure:

Click **Can’t access your account?** and fill out the information

Your email should already be populated, type the captcha.
Once that is completed, you will be sent an email with a code to verify your account.

Set your new password and click finish.
Once you change the password, click the Single Signon with SAML again.

You will be asked to change your password again, this is a MOVEit security feature. This password would have to be changed every 180 days.

Once you change your password, go back to https://sftp.oshkoshcorp.com and click the single sign on at the bottom to sign in.
Let me know if you have any questions or issues connecting.
Thank you.
