TO: Oshkosh Corporation Suppliers

SUBJECT: Section J- Modified Required Receiving Label

Dear Valued Supplier,

Through continuous improvement events, research of industry standards and a simplification effort, Oshkosh Corporation has revised the required receiving label that is outlined in Section J of the Supplier Standards Guide. This letter is to inform you of the launch of the new label, and it is required you review and make modifications to your current labeling process in order to become compliant. You will have a 1-year period in order to modify your label to meet our new standard. Before then, it is crucial you become familiar with our new label specification by viewing it in our supplier standards guide. If after 1- year, the standard cannot be met, you will be at risk of receiving a supplier noncompliance through the Section J -Reliance System.

Thank you for your continued support of Oshkosh Corporation, partnership and compliance to our Supplier Standards Guide. The updated Supplier Standard Guide link can be found here: <https://osn.oshkoshcorp.com/ssg.html>. Adherence to these guidelines creates efficient product receiving capabilities for Oshkosh Corporation. We also thank you for your support in meeting our supplier expectations.

Sincerely,

A handwritten signature in black ink that reads "Tim Jones".

Tim Jones  
VP, Global Materials Management  
Oshkosh Corporation
