

Supplier Partners,

Oshkosh is in the process of implementing the JAGGAER Digital Procurement Platform, replacing our existing ISupplier (OSN) Portal, bringing end-to-end Source to Pay together with streamlined business processes empowered by reliable cloud-based technology. As an Oshkosh supplier, we are providing you with this outlook on the expected impacts.

JAGGAER is an industry leading supply chain solution that will enable the standardization of procurement tools across all Oshkosh segments, and provide an improved user experience. This represents a step forward for Suppliers and Oshkosh as we modernize our procurement systems.

Our expected Go-Live date is February 28th, 2022.

What are the primary benefits?

The transition will benefit our supplier relationship by simplifying processes and providing efficiency in supplier profile management, sourcing, and purchase order management for our supply base.

- Modernized system for collaborating on sourcing events (eRFQ's), managing orders, viewing forecasts, receipts, and invoices.
- A central place for suppliers to maintain contacts, key company addresses, and company capabilities, allowing Oshkosh to work more efficiently with your organization.

What does this mean for you?

The implementation of JAGGAER will replace the ISupplier (OSN) Portal platform only. In the coming months, Oshkosh will host several Supplier Experience and Q&A sessions for our supply base to ensure a seamless transition. In these sessions, we will provide an overview of the solution and our vision, along with the opportunity to ask questions in an open forum.

Your company will receive an invitation to the Supplier Experience Sessions that will take place in Q4 2021. We recommend that at least one representative from your company attend these sessions however, you can send more to ensure that you do not miss any pertinent information during this transition.

The following information details the changes of processes by module:

| Module | Key Benefits for Suppliers |
|--|---|
| SRM, Supplier Relationship Management | <ul style="list-style-type: none">• Supplier data and contacts all in one accessible place, with suppliers managing and maintaining their own data in JAGGAER• Intuitive SRM dashboard that shows one view for all supplier data and any open RFQ or PO with Oshkosh• Enhanced KPI functionality with drill down capability• Automated reminders for certificates and required profile updates |
| eRFQ Sourcing | <ul style="list-style-type: none">• One platform to respond to all Oshkosh sourcing events by segment• Automated email notifications for RFQ events and deadlines• RFQ dashboard with overview of all RFQ activity for the suppliers |
| Supply Chain | <ul style="list-style-type: none">• JAGGAER as the central location to view forecasts, view invoices, collaborate on orders, and submit ASN's• Automated email notification reminders for unopened or unacknowledged PO's• Ability to print Oshkosh approved shipping labels directly from JAGGAER |

Please be on the look-out for additional communications on these exciting changes over the coming months.

Thank you for your continued support and partnership. We appreciate your help in implementing this exciting new platform.

Sincerely,

Oshkosh Global Procurement & Supply Chain
