

Classification	S2P Questions	S2P Answers
EDI	My IT department has been working on getting EDI coded based on the current portal . Will there be new EDI coding documentation that can be sent to suppliers to start coding for the new Jaggaer portal now?	JAGGAER will work with EDI in a similar fashion that OSN does today. The majority of the EDI transaction will require no action from suppliers. For the transactions that require changes by suppliers, we will issue subsequent communications with additional details.
EDI	Does this portal change mean that we won't have to use EDI anymore?	EDI is an optional program allowing suppliers to electronically connect to Oshkosh orders and react in a timely manner. Oshkosh will continue to utilize EDI with Jaggear taking this over in future phases.
EDI	I am assuming that if we are EDI that ASN and order acknowledgements will flow through?	Yes, any transactions that currently flow through EDI, will continue to flow through EDI in the new system. The project team will be in touch on EDI related activities and if anything is required from Suppliers.
EDI	Are there any changes that we will need to make for the EDI interchange?	
EDI	Will the work we have done to comply with EDI on the current platform .. will that work carry over to the new platform, or will we have to start over with EDI?	The large majority of EDI transactions will work as they do today. Any exceptions will be communicated to EDI Suppliers in the coming weeks.
EDI	What steps, if any, do we need to complete if already partnered with OshKosh via EDI?	BearingPoint will contact you to complete set-up of the EDI process. We are working to minimize any disruptions around ongoing EDI activities.
EDI	We get orders processed through EDI but currently there are numerous change requests, order acceptance and removals sent through the portal email system. This is duplicate work and needs to stop. Will there be more reliance on EDI vs the portal for order management / communication?	Oshkosh Corporation works to minimize disruption within our valued supply base but unfortunately this will happen due to a variety of reasons.
General	Will this new system be used at all Oshkosh Locations Globally?	New Supplier Portal will be used globally by our four segments globally
General	Will print transfers be done on this platform as well?	All segments EXCEPT Defense are able to attached prints in the new platform. Defense Sourcing events MUST utilize MOVEit to transfer prints due to ITAR and EAR requirements on controlling access to key information and data.
General	The speed and reliability of the current OSN is very hard to manage at this time. Will we see any improvement with the OSN between now and when the new system is up and running?	Our existing platform has been running for the past 13 years and as expected is experiencing issues with uptime. Our new platform is a cloud-based application which will have a much improved experience with uptime and overall benefits for our supplier base.
General	Will this new program also take the place of Reliance?	Oshkosh new supplier Portal will not replace Reliance but will receive information from the system to populate part numbers and PPAP requests.
General	Will the new platform replace imoveit for drawing access?	MOVEit will still be used by Defense to transfer prints and technical data that is ITAR and EAR controlled information.
General	Will the slides be available to access after this session?	Slides will be on osn.oshkoshcorp.com in our Supplier Portal communications hut
General	Will Oshkosh utilize the Punchout catalog functionalities and EDI capabilities of Jaggaer?	We will not be utilizing the punchout catalogs in this first phase of our S2P rollout. However, we do have it in our current scope for future phases. Jaggaer EDI will be a functionality that will be part of our phase 1 implementation with the EDI 855 transaction type impacting our current EDI connected suppliers today.
General	Will roll out include/utilize current Admin role or does that need to be set up prior to roll out?	Generally, the roll out will not pull in Admin roll, whoever the first contact we set up within the portal will be set up as an Admin and then that supplier can change that themselves as they see fit.
General	Will all the users set up in iSupplier transfer to Jaggaer or will we need to set up each user in Jaggaer?	Existing uses will not be automatically transferred to the new platform. When supplier register in the new system they will be required to set up users which will allow each of you to update and maintain your contacts without intervention from Oshkosh.

General	Currently we have multiple portals: OSN, MOVEit Reliance. Once SP2 is implemented we will need to continue to use MOVEit and Reliance approximately how long before SPS is the only Oshkosh portal in use?	Oshkosh will continue to work with the following applications S2P, Jaggaer, Supplier Quality, Reliance and Secure file transfer, MOVEit and warranty, One Warranty. Other than our new S2P, Jaggaer system all passwords are the same. S2P, Jaggaer will have a different password but with enhanced features to reset.
General	Currently we have 1 login for each of our plants that ship to Oshkosh (4 logins). Will Jaggaer also require 1 login for each location or can we have just 1 login for our company?	Users will have their own unique login with access to all the segments they supply
General	i have never recieved any emails in the past for this information, is there a place I can go to confirm? Will the Admin of the current portal transfer over to the new one?	Existing uses will not be automatically transferred to the new platform. When supplier register in the new system they will be required to set up users which will allow each of you to update and maintain your contacts without intevention from Oshkosh.
General	Will there be a designated administrator for each company? How will that person be selected for each company?	Generally, the roll out will not pull in Admin roll, whoever the first contact we set up within the portal will be set up as an Admin and then that supplier can change that themselves as they see fit. User in the new platform will be able to add new people based on DUNS numbers locations.
General	Will you use the e-mail in the current portal?	Yes, Suppliers will receive registration invitations to the email listed in the current portal.
General	Will there be seperate training for accounts payable people?	Training aids will be available for internal and external users. Supplier training will be located on the Oshkosh Supplier Network under our new communication hub.
General	Will the Jagger protal have a link to Oshkosh Reliance Login?	Oshkosh will be setting up links on the main Dashboard for external applications.
General	How will SDX be effected?	SDX will not be affected during this transition and we will have the same connections as we do currently.
General	Will Move-It still be the same?	MOVEit will still be used by Defense to transfer prints and technical data that is ITAR and EAR contolled information. All segments have the option to utilize MOVEit.
General	Will Jaggaer use the single sign on?	Yes
General	Will each person listed on the portal, receive a training invite? Or will it only be sent to those that are participating in these initial webmeetings?	Oshkosh is currently in the processs of finalizing training materials for suppliers. These training materials will include videos, quick reference guides, and FAQ documents. Suppliers will also have the ability to join Q&A sessions as we approach the Go-Live Date. All materials are being posted to osn.oshkoshcorp.com
General	Are we able to export information to excel. I.E. PO information and forecast data?	Yes, information can be imported into a downloadable excel file
General	Will we still be able to export reports based off what is Due from a shipping stand point? and, will; we still be able to have seperate that data seperate bassed of of customer, ie. Pierce or oshkosh?	Export functionlaity exist for all modules withi Jaggaer.
General	Are we able to use an existing login for Jaggaer to complete the Oshkosh registration or do we have to create another login only for Oshkosh?	If you are already a Jaggaer Supplier you are able to use exisiting login information. If you are not already on Jaggaer you will need to create login credentials.
General	We supply 4 divisions of Oshkosh; currently in the OSN portal, users are required or have the option to 'opt in' to different Oshkosh sites for access to POs, etc... will this same functionality be in Jaggaer?	Supplier will be able to sort through our four segments requests and have targeted communications to minimize the amout of email traffic.
General	Will this platform handle NCMT's?	New Supplier Portal will not be handling non-conforming material tickets at this time.

General	How will new users we add within our company get log in credentials for Move It and Reliance? Through Jaegger?	New Supplier Portal will have the option to allow suppliers to keep their information updated. MOVEit and Reliance will require user to contact their buyers to complete a form or go to osn.oshkoshcorp.com site in the section marked training to get the form.
General	We are a newly approved Defense supplier. How, if at all, does this affect OneWarranty?	Oshkosh New Supplier Portal does not affect the OneWarranty application
General	We also do business with JLG EMEA. Are they also going to be utilizing this new portal? Will we have to duplicate all of the set up / registration for them?	All Oshkosh segments will be utilizing the JAGGAER portal - including JLG EMEA. Suppliers that do business with more than one Oshkosh segment will only need to go through the registration process once.
General	How will it work if we supply to 2 different companies? Are there tabs or other options to differentiate?	The JAGGAER portal will present one unified platform between Oshkosh segments and suppliers. The supplier portal and onboarding process has been designed so that there is little to no re-work for our suppliers. Suppliers will be instructed to complete all necessary information during the onboarding process, which may be different based on segment, region, etc.
General	Will there be a period of time where suppliers are needing to use both the current OSN and Jaegger?	Currently the only offset will be if an existing RFQ is in process and does not close out by February 28, 2022. That RFQ will need to be closed out in the existing portal but anything new will come from the new supplier portal. At most for existing RFQ's you might operate out of both systems but we are going to keep this to a minimum.
General	Can we start building out profile prior to the go live date?	Beginning in November, suppliers will receive an email from Jaggaer with a link where they will then be able to begin the registration process for the supplier portal.
General	How would we register a global company that has multiple locations that has different supplier numbers from different countries?	Login's will be based on users and DUNS locations. The initial login for all suppliers does have to be a single point of contact but after that person registers your company you can set users by location and module.
General	My company is an engineering services provider. We've had other customers do similar rollouts but, while they did a great job of rolling the system out to suppliers, they did not do a good job of rolling out the system to their internal users, especially managers who might be using the system for submitting RFQ's. Will there be a full rollout to all internal users, too? And will RFQ's be coming only from Purchasing or will engineering managers also be submitting RFQ's?	Oshkosh internally will be setting up bootcamps for all of our users to train and educate them on how to utilize Jaggaer. We will be starting in November with a limited roll out to those who will be supporting SRM and then expand to our global teams for Sourcing and SCM. We will have training aids and videos for our supplier partners and set up office hours for anyone having questions once they review the training documents.
General	Will there be any current information pulled over or will this all be new information entered when it is time to set up?	The only information we will be pulling over to the new portal will be the supplier numbers and about 3-4 months of past data. We are currently working with our segments to determine the timeframe.
General	Will Reliance and MOVEit be affected with this change?	New Supplier Portal will have the option to allow suppliers to keep their information updated. MOVEit and Reliance will require users to contact their buyers to complete a form or go to the osn.oshkoshcorp.com site in the section marked training to get the form.
General	Is there a way to communicate directly with the Oshkosh buyer through the portal, rather than through email?	There is a messaging functionality that users can access within the portal but notifications will be sent through email.
General	How do we know who is expected to receive the registration email?	Supplier's main contact will receive the registration email. BearingPoint and Oshkosh will be monitoring supplier registrations. If we don't see any progress will be communicating to suppliers.
General	We will use this system to access the Reliance Portal?	Reliance is a separate system and from a supplier perspective are not connected. Jaggaer will have its own unique login.
General	How will when PPAPs are required be communicated?	PPAP requests will show up on the PO and within Reliance will automatically be populated and assigned to all user who have access to that module.

General	Will any past data be transferred from isupplier or will all old data disappear?	Each segment will be identifying what information needs to be transferred from the old to new system. This is still in process and will vary.
General	Where will training aides and videos be located?	Training aids will be located on the Oshkosh Supplier Network; we will be sending multiple reminders for the website location - https://osn.oshkoshcorp.com/s2p.html
General	We have experienced ongoing delays through the current portal in the past few months, is this new portal going to improve those delays?	Our existing platform has been running for the past 13 years and as expected is experiencing issues with uptime. Our new platform is a cloud-based application which will have a much improved experience with uptime and overall benefits for our supplier base.
General	On the Live Poll you list Airport Products under Fire & Emergency. Our understanding/misunderstanding is that Airport Product in under Defense,correct?	Airport products are built at a Pierce facility but ordering takes place within a Defense ERP system.
General	Will the PPAPs still be done through the Reliance System	PPAP will continue to be completed within Reliance.
General	In regards to Purchase Orders specifically... if there are open POs from isupplier prior to 2/28, will they transfer to Jaggaer because they are still open and in process?	Each segment will be identifying what information needs to be transferred from the old to new system. This is still in process and will vary.
General	Are suppliers required to input an OTP code every time they log-in or only once per day?	OTP Login codes are valid for 10 days. After that a new one needs to be re-entered. You will be prompted by the system when needed.
SCM	Will PO change requests tell you what the change is on the PO?	Yes, PO change requests sent to the buyer will call out what specific change was requested on the PO.
SCM	Will Oshkosh/JLG be moving to scheduling agreements vs discrete line item orders?	Not at this time
SCM	Will this new system help in eliminating duplicated information that I am having provide daily right now. There are some days I provide tracking 2/3 times a day for 1 Purchase order?	This platform will incorporate all transactional documents with Oshkosh, this will include transports and ASN. If you provide this information into JAGGAER then it will be visible to both Oshkosh and Oshkosh Suppliers.
SCM	Will POs still be sent by email to me?	The PO will be accessible through the JAGGAER Supplier Portal but suppliers will be notified through email when there is a PO available.
SCM	Will we be submitting invoices through this portal once it goes live? Or will those still be submitted via email?	Invoices will still be sent how they are today, the data will now be available to be viewed within the Supplier Portal.
SCM	Will there be a PO number migration to update existing PO numbers from the old portal (ie PO#123 from existing platform is changed to PO# 456 for Jaggaer)?	The PO# will be the same as we transition into the new portal.
SCM	We currently do not send ASN to Oshkosh or Pierce. Is this something in the works that all of your suppliers need to send ASNs?	We are asking for ASN's to be submitted by all suppliers for all locations.
SCM	Will the open invoices from the old platform be transferred to Jaggaer?	Open invoices will be reflected in Jaggaer's invoice/payment reports
SCM	Will the new TMC portal still need to be utilized along side of Jaggaer?	TMC Portal will continue to be required for shipments. We have a follow on program running in parallel that wil connect TCM to the new Supplier Portal. We will have more information on this change in April 2022 timeframe.
SCM	Will you be able to invoice in the portal?	Yes
SCM	We only ship small packages to Oshkosh, Pierce, and JLG; do we need to use the TMC portal or Jaggaer or ASN?	Specific question on shipping expectations can be emailed to the following address - OshkoshTMC@mytmc.com - you will still need to use TMC
SCM	Will shipping labels be available through Jaggear or are we still using TMC?	Shipping labels will be available through Jaggaer (SCM>Purchase Orders>Disposition List)
SCM	Will the process of submitting an ASN be a little easier/smooher?	Submitting an ASN will be much easier to submit in our new Supplier Portal. Training documentation will be available via a job aid.
SCM	In regards to ASN's. Can we get updated criteria for what is needed? We ccurrently have alot of issues with Oshkosh and their requirements and want to be sure we have the most up to date info?	Submitting an ASN will be much easier to submit in our new Supplier Portal. Training documentation will be available via a job aid.

SCM	On a shipping clerks point of view will the ASN process be more efficient and user friendly?	Submitting an ASN will be much easier to submit in our new Supplier Portal. Training documentation will be available via a job aid.
SCM	How much of this change over to JAGGER pertains to shipping?	New Supplier Portal has some effect on shipping around ASN in this phase. The follow on phase in the couple of months after go live we will be integrating to our transportation management system for all shipping.
SCM	We currently email invoices. Will that change post go-live?	Invoices will still be sent how they are today, the data will now be available to be viewed within the Supplier Portal.
SCM	Will there be an ability to view invoices that are queued for payment and invoices that have issues, i.e. a price or quantity variance?	Invoices will still be sent how they are today, the data will now be available to be viewed within the Supplier Portal.
SCM	Is there a way to group submitted POs by Oshkosh buyer? Often, we have questions/issues with a batch of POs from an Oshkosh buyer/location, and through the current portal, there is no easy way to isolate those PO groups?	Supplier will have multiple options to sort PO's and yes it can be done on buyer for supplier and internal.
SCM	Is the order format going to change or will it stay the same?	As with any system there will be changes to the order format.
SCM	Will there be any disruption in receiving POs from the Prod Workflow Mailer with the transition to the new portal on 2/28/22?	Oshkosh will be transitioning over a weekend to the new platform to meet the February 28, 2022 Go Live
SCM	Can POs be organized by due date rather than submission date?	Suppliers can sort POs by date created in the ERP system, date created within Jaggaer, and date last modified.
SCM	If we don't currently use the portal to invoice, will it be required to do so going forward with the new platform?	Invoices will still be sent how they are today, the data will now be available to be viewed within the Supplier Portal.
SCM	We are at Franklin and are the logisitics for our customers, will our customers need to create logins for us to create ASN's in this system or will Franklin need to do this?	You can invite them as another user through the portal
SCM	Can you correct information, like ASNs?	Yes you can edit the delivery notes before they have been advised. Once advised suppliers can view them but make no edits.
SCM	How will change orders be handled via email notificaiton as well ?	Change orders are going to happen and suppliers will be notified of the changes via email or within the system.
SCM	Will the Jagger site provide a forecast out for all parts?	Portal will display 12 month forecast for all parts.
Sourcing	Will we still recieve email notifications when an eRFQ is made available?	Yes
Sourcing	Will the buyer be required to respond to a question sent via the portal within a certain time frame?	Yes, the Buyer will establish a timeframe within the portal, suppliers will be receive reminders through email.
Sourcing	Can you transfer open eRFQ from OSN to S2P for launch rather than continue to use 2 platforms temporarily?	We will not be transferring existing eRFQ's from our existing system but will be working to minimize the disruption and length of time needed to support both systems.
Sourcing	Will quality documents such as QAC and other specification documents that are used in the Access group be availalbe on the new system vs having to request these documents each time they are needed for quotations.	Documents can be stored on the new system but will depend on the content; we are working to determine where this information can be housed for easier access to our supply base.
Sourcing	Will suppliers be able to transfer red line drawings, prints and technical data through the new system or MoveIt?	MOVEit will still be used by Defense to transfer prints and technical data that is ITAR and EAR contolled information. ITAR and EAR prints and technical data MUST go through MOVEit.
Sourcing	Currently the RFQ system is used for engineering updates. Adding an RFID tag to an existing product. Will there be a seperate system for EngineeringChange Notices? The current RFQ format is not very good at managing simple change requests?	Engineering Change requests can be done in Reliance currently which allows the Oshkosh team to route internally to all of the various team members for approval. Change notices overall are not in scope for phase 1
Sourcing	When there is an RFQ, will there be an email sent to make us aware of this, or do we need to check the portal every day?	Yes, the Buyer will establish a timeframe within the portal, suppliers will be receive reminders through email.

Sourcing	If when registering we do not select all the correct categories. An RFQ goes out to a Category we were not in, but can supply the product. How do we make sure we are getting opportunities to quote those that we can, even if sent to a category we are not in?	Suppliers are able to add/edit which categories they are able to quote in after initial registration. The category management module will not be live until FY22 or later. Buyers will still be using existing bid lists.
SRM	Will this system work if our company has multiple point of sale sites globally?	JAGGAER has the ability for Suppliers to maintain multiple site locations if necessary.
SRM	What do we do if our product does not fit into a specified category or is not listed?	We have well over 20 categories to choose from; if you still feel your product does not fit into a specific category please contact your buyer for assistance.
SRM	What if your supplier has many supplier codes that has several Primary categories? Can you select multiple?	You can only select one primary category, but you can select multiple secondary categories. Oshkosh can sort suppliers however they need to, it will be the same process.
SRM	Can more than 1 ISO cert be added (we are site specific on our ISO certs)?	Right now only 1 ISO cert can be added, you can upload a zip file with all of them and input most recent date.,
SRM	Will BSC certificate be requested from international suppliers?	BSC will be requested for all suppliers regardless of location or region. This is a system limitation where it is an all or nothing situation in the software. Our request is to complete this as best as possible to support our overall diversity program at Oshkosh.
SRM	We've had issues with our score card in the past and accurate data being transmitted from what we are responding to on the portal and what our score card is reflecting. Will this improve the capture of accurate data for our score card?	Supplier scorecards come from each of our segment ERP systems with both our existing platform and new platform displaying the information. If there are issues please contact your buyer for assistance.
SRM	Supplier Scorecards- Will we be able to pull them in a printable media?	Scorecards will allow for export into another media like Excel and can be printed once downloaded.
SRM	Will there be a performance tab like on the current OSN portal? This helps us to review any issues and work on improvement going forward?	Supplier performance KPIs will be displayed to the supplier on the dashboard.
SRM	Will Amber Road still be used for USMCA certs?	Amber Road will still be used to collect some certifications but we will be evaluating this further to determine if this needs to be moved into our new Supplier Portal.
SRM	What will the Supplier Dashboard Metrics be in the future ?	Oshkosh will be expanding supplier metrics from our current set-up of OTD, OTS, and PPM to including Premium / Expedited Freight, ASN Compliance, and out of our Supplier Quality System (Reliance) number of Supplier correction action request, SCAR's, Reliance Change Management, RCM's, and Production Part Approval Process, PPAP First Pass Yield, FPY.
SRM	Also can scorecards show our comparison within our commodity?	This is being worked on for the future but not available with this phase of the project.
SRM	Relevant to the scorecard with the current economic conditions all suppliers are struggling due to conditions that we have zero control over how will this be handled?	Scorecards are continually be evaluated and updated; if you feel there is an error please contact your buyer for assistance.
SRM	Will Jaggaer have suppliers enter RohS and Reach type compliance for parts?	Oshkosh will not be using Jaggaer platform to enter RohS and Reach compliance for parts. This will be done by existing systems.
SRM	Will ATO (authority to operate) be a category for business certs?	Not at this time but Oshkosh will be adding more certification options going forward.
SRM	What if we do not have ISO certification?	Under the certifications tab for that question you can select "No" which will allow you to complete your profile.
SRM	Will there be a category for air conditioning parts only?	We have a category set up from Cooling/Emissions which will cover this item.
