

## Section F: Terms and Conditions for Subcontracts Issued in Support of a U.S. Government Contract

Revised: **16 December 2020**

This Section F of the Supplier Standards Guide contains the terms and conditions (“Terms and Conditions”) that apply to subcontracts and purchase orders (“Purchase Orders”) issued by Oshkosh Corporation or any of its purchasing divisions or segments or by any subsidiary of Oshkosh Corporation in support of a U.S. Government prime contract or higher-tiered subcontract (“Prime Contract”). This Section F applies to such Purchase Orders in lieu of Section D of the Supplier Standards Guide.

All purchases of Products (as defined below) by Oshkosh Corporation or any of its purchasing divisions or segments or by any subsidiary of Oshkosh Corporation (“Buyer”) from the supplier to which this Purchase Order is directed (“Supplier”) shall be subject to the following Terms and Conditions, which are hereby incorporated in their entirety into any Purchase Order designated on its face as a “Government” Purchase Order. Buyer and Supplier are sometimes referred to herein individually as a “party” and collectively as the “parties”. The following Terms and Conditions are also incorporated into, and supplement the terms of, each supply agreement signed by any Buyer and a Supplier and Purchase Orders issued by Buyer to Supplier under such supply agreements.

### ARTICLE I – TERMS AND CONDITIONS

1. Acceptance and Governing Provisions. THIS PURCHASE ORDER IS NOT AN ACCEPTANCE OF ANY OFFER BY SUPPLIER TO SELL BUT IS AN OFFER BY BUYER TO PURCHASE which may be accepted only by issuance of an order acknowledgment by Supplier to Buyer, or by other expression of acceptance by Supplier, including shipment or performance hereunder. This offer may be revoked by Buyer’s written notice to Supplier at any time prior to any such acceptance by Supplier. Notwithstanding the foregoing, if Supplier does not attempt to accept this offer until more than fifteen (15) days have passed since the date of this Purchase Order, Buyer shall then have fifteen (15) days after the date of such attempt to reject the attempt, and if Buyer so rejects Supplier’s attempted acceptance, that attempted acceptance will be ineffective and this offer will be void. Upon effective acceptance by Supplier, this Purchase Order (including these Terms and Conditions and any other documents referenced or incorporated into this Purchase Order or these Terms and Conditions), shall constitute the entire agreement between the parties (except for any additional warranties given by Supplier) with respect to the purchase and sale of the goods and services identified in this Purchase Order (“Products”), superseding any and all previous communications and negotiations, whether oral or in writing. Buyer hereby objects to any and all additional or different terms or provisions (except additional warranties given by Supplier) in any quotation, acknowledgment, invoice or other form or communication supplied by Supplier or on any Supplier portal or website, and no such additional or different term or provision (except additional warranties given by Supplier) shall become part of the agreement between the parties. In the event of any conflict at any time between any provision contained in these Terms and Conditions and any term or condition or attempted limitation of liability or disclaimer of warranty set forth in any Supplier form, communication, portal or website, it is agreed by Supplier that such provision in these Terms and Conditions shall control such conflict and govern this purchase. The agreement of sale resulting from the acceptance of this Purchase Order shall be governed, construed and interpreted in accordance with the internal laws of the State of the United States of America in which Buyer is

headquartered on the date of this Purchase Order, as identified in Section 20 (Disputes) below. THE RIGHTS AND OBLIGATIONS OF BUYER AND SUPPLIER SHALL NOT BE GOVERNED BY THE PROVISIONS OF THE UNITED NATIONS CONVENTION ON CONTRACTS FOR THE INTERNATIONAL SALE OF GOODS. These Terms and Conditions may be translated into other languages from time to time, but Buyer and Supplier hereby acknowledge and agree that the English-language version of these Terms and Conditions shall govern and control all such translations into any other language. Supplier acknowledges and agrees that all negotiations in connection with this Purchase Order and these Terms and Conditions shall be deemed to have taken place in the State of the United States of America in which Buyer is headquartered on the date of this Purchase Order. Supplier is an independent contractor, and not an agent, employee, partner or joint venturer of Buyer, in its performance of this Purchase Order. References to "days" in these Terms and Conditions shall mean calendar days unless expressly stated otherwise. References to "include", "includes" or "including" in these Terms and Conditions shall be deemed to mean "including without limitation."

2. Deliveries; Cancellation by Buyer; Forecasts.

- (a) Supplier agrees to sell and deliver to Buyer such quantity(ies) of Products, at the price(s), to the location(s) and on the delivery date(s) specified on the Purchase Order. Buyer's internal production schedules are based upon timely performance by Supplier under this Purchase Order. ACCORDINGLY, TIME IS OF THE ESSENCE FOR THIS PURCHASE ORDER AND SUPPLIER HEREBY AGREES TO ENSURE IT MEETS THE DELIVERY DATE(S) SPECIFIED ON THIS PURCHASE ORDER. In the event delivery date(s) are not specified on the Purchase Order, Buyer shall specify delivery date(s) at a later time, and Supplier shall have seven (7) days after receipt of these delivery date(s) to propose alternate delivery date(s). If no alternate delivery date(s) are received by Buyer within such seven (7)-day period, then Buyer's specified delivery date(s) shall be deemed part of and specified on this Purchase Order. If Supplier proposes alternate delivery date(s) within the seven (7)-day period, the parties will negotiate in good faith to determine the delivery date(s). If delivery date(s) cannot be agreed upon by the parties, Buyer shall have the option to terminate and cancel this Purchase Order pursuant to Section 23 (Termination/Cancellation) below. If any deliveries are not made by the delivery date(s) and in the quantity(ies) specified on this Purchase Order (including by reason of a Force Majeure Event (as defined in Section 22 below)), Buyer may, in addition to any other rights or remedies it may have under this Purchase Order, at law or in equity, cancel this Purchase Order with respect to any or all deliveries of the Products that have not been made or with respect to any or all of the Products not previously accepted by Buyer, without any liability whatsoever, and in the event of any such delay in delivery (other than due to a Force Majeure Event affecting Supplier), Buyer may hold Supplier responsible for all Losses (as defined in Section 16(a) below) caused by or arising from untimely performance, including: (i) all direct, incidental and consequential damages and any resulting late performance penalties incurred by Buyer; and (ii) if Buyer covers by purchasing goods or services from another vendor, the amount (if any) by which the cost of such goods or services exceeds the contract price of the affected Products hereunder, along with all other cover damages. If the Purchase Order is a rated order, nothing in the foregoing paragraph modifies or changes Supplier's obligations under the Defense Priorities and Allocations System regulations in 15 CFR Part 700.
- (b) From time to time, Buyer may, in its sole discretion, deliver non-binding 52-week forecasts to Supplier. Notwithstanding any such forecast delivered by Buyer, all purchases of Products shall be governed by this Purchase Order and other Purchase Order(s) that may be issued by Buyer, and Supplier agrees that any such forecast is intended solely to assist in planning Buyer's production schedules and is not a commitment by Buyer to purchase any minimum volume of Products from Supplier. Supplier shall not unreasonably anticipate delivery of Products by purchasing materials or manufacturing quantities in excess of what is reasonably

required to meet the delivery date(s) set forth in this Purchase Order. Any Product received by Buyer in advance of its scheduled delivery date may, at Buyer's option, be returned to Supplier at Supplier's risk and expense or be stored by Buyer at Supplier's expense and payment withheld until sixty (60) days after the scheduled delivery date.

3. Prices; Payment; Taxes. Supplier agrees to sell the Products to be furnished to Buyer hereunder at the prices stated on this Purchase Order. All such prices are firm, and no additional charges or surcharges or price increases or adjustments will be allowed unless specifically agreed to in writing in advance by an authorized officer of Buyer. Without limiting the foregoing, Supplier shall bear the risk of currency exchange fluctuation, changes in the cost of commodities, materials, components or labor, and increased or new tariffs, duties and taxes, and no such event shall serve as the basis for a price increase or surcharge, however named. Supplier warrants and agrees that the net prices charged by it to Buyer for the Products (including Products being purchased for aftermarket purposes), and the terms applicable to Buyer's purchase of such Products, are not and shall not be less favorable from the perspective of the purchaser than those prices and terms currently extended or offered by Supplier to any other customer for the same or like goods or services in equal or less quantities. In the event Supplier reduces its price for any such Products prior to complete delivery of all goods or the furnishing of all services covered by this Purchase Order, Supplier agrees to reduce, correspondingly, the price of the goods or services covered hereby. Upon notice to Supplier, Buyer may offset any amounts due Buyer from Supplier against amounts due Supplier from Buyer. All prices are expressed and shall be payable in U.S. dollars unless otherwise provided on this Purchase Order, or unless prices are addressed in a separate currency exchange agreement between Buyer and Supplier. Buyer shall pay all undisputed amounts reflected on an invoice within sixty (60) days after Buyer's receipt of the Products or receipt of a correct invoice covering those Products, whichever is later. Except as provided in Section 3 hereof or in the Delivery Terms (as defined below), Buyer shall not be liable for any national, federal, provincial, state, municipal or local taxes, duties, tariffs, harbor maintenance fees, customs payments, or assessments, including any special tariffs imposed for reasons of national security, safeguard actions, antidumping or countervailing duty orders, or other international trade remedies, in connection with the sale, purchase, importation, transportation, use or possession of the Products ordered hereunder, other than those expressly set forth on the Purchase Order.
4. Exemption Certificate. Buyer hereby certifies that it is a manufacturer or producer of specialized trucks, vehicles and/or equipment. The Products specified on this Purchase Order are tax exempt for the following reason(s) as indicated on this Purchase Order:

5. Shipments; Packaging.

- (a) All Products shall be delivered in accordance with the domestic shipment, international sea freight shipment or international air freight shipment terms, as applicable, posted on the Oshkosh Corporation procurement website, <http://osn.oshkoshcorp.com> (select the Oshkosh Logistics link) on the date of this Purchase Order (the "Delivery Terms"). All international shipments shall be made by sea freight under a shipping term of FOB nearest port to Supplier (with "FOB" having the meaning assigned to it under the then-most current version of Incoterms), unless Buyer instructs Supplier in writing otherwise. All shipping charges shall be collect. If Supplier uses any means of delivery other than as specifically set forth in the Delivery Terms or expressly authorized in writing by Buyer, Supplier shall be responsible for any and all additional shipping costs (including freight costs, tariffs, harbor maintenance charges, taxes, duties and other shipping-related costs) incurred thereby. Without limiting the foregoing sentence, Supplier hereby acknowledges and agrees that there shall not be any departure from the specific routing set forth in this Purchase Order except in the case of emergencies identified by Buyer, and Buyer may recover from Supplier, and Supplier shall pay, all overcharges arising from failure to follow such specified routing.
- (b) Unless otherwise specified by Buyer in the Purchase Order, the following provisions shall apply to all shipments of Products:
- i. All Products ordered hereby shall be suitably packed, marked, insured and shipped in accordance with Buyer's written specifications, and without limiting the foregoing, at a minimum Supplier shall prepare and package all Products for shipment to prevent damage or deterioration thereto during shipment and for a period of twelve (12) months thereafter;
  - ii. All Products that will be shipped internationally will be boxed and packed in containers or otherwise in accordance with Buyer's instructions;
  - iii. Standard commercial packing shall be used unless other packing instructions are specified on this Purchase Order, and no charge for containers, cartage, packaging or packing is allowed (unless the Purchase Order specifically provides otherwise);
  - iv. All shipments must include a packing slip identifying the applicable Purchase Order number, the part number(s), description of material(s) and quantity(ies) of Products (in the absence of such information on the packing slip, Buyer's inventory count, itemization and other review of the contents of the shipment shall be conclusive);

- v. All printed invoices must be rendered in duplicate for each Purchase Order;
- vi. Express bills of lading, express receipts or other shipping documents required by Buyer shall be promptly mailed to Buyer with the applicable invoices, in the case of domestic shipments of Products, and sent via courier, in the case of international shipments of Products;
- vii. Palletization on non-returnable pallets with minimal packaging (consistent with appropriate care of the Products), preferably made of recyclable/reusable materials, should be used whenever a returnable is not a viable option, and all pallets shall have a minimum ground clearance of two-and-one-half (2-1/2) inches; and
- viii. Without limiting the foregoing, as soon as practicable, but in no event more than 30 days after the award or issuance of this Purchase Order, Buyer and Supplier shall agree upon a written protocol (the "Shipping Instructions") covering in detail all aspects relevant to packing, packaging, shipping and delivering the articles covered by this Purchase Order, including the size and type of shipping containers, the method and configuration of packing articles in the containers, requirements as to number of counterparts and contents of packing slips, bills of lading and invoices, timing and methods of giving notice with regard to shipment dates, procedures for delivery of the articles to Buyer or its carrier, and procedures for moving articles to storage if timely delivery cannot be made. Supplier agrees to refer to the Oshkosh Corporation procurement website, <http://osn.oshkoshcorp.com> (select the Oshkosh Logistics link), for additional information.

6. Country of Origin Product Markings; Certificate of Conformance.

- (a) *Country of Origin Product Markings.* All Products must be permanently, indelibly and legibly marked with their respective country of origin. The mark must be the country's complete name in the English language (19 CFR Part 134). This marking requirement must be satisfied in different ways, depending upon which of the following two scenarios applies:
  - i. If the Products are to be used by Buyer in manufacturing, Supplier must mark the outermost shipping container with its content's country of origin.
  - ii. If the Products are purchased by Buyer exclusively for aftermarket sale, Supplier must mark the Product itself and the individual saleable package containing the Product.
- (b) To determine which of the scenarios in paragraph (a) pertains to Supplier's shipments to the United States, the following general rule should be utilized: Any shipment destined to Buyer's service or distribution centers should be considered "exclusively for aftermarket sale."
- (c) On an annual basis and as otherwise requested by Buyer, for all Products Buyer purchases from Supplier, Supplier must timely supply Buyer in writing with: (i) country of origin information; (ii) information as to whether the Products comply with the Trade Agreements Act; (iii) the status of the Products under the Buy American Act; and (iv) proof of compliance with specialty metals requirements. This requirement to provide country of origin information applies both for preferential (i.e., North American Free Trade Agreement – NAFTA or other free trade agreement) and non-preferential (i.e., not pursuant to a free trade agreement) information. Supplier must provide this information promptly to ensure Buyer's international shipments and government sales are not negatively impacted.
- (d) For any and all entries for which preferential treatment is being requested pursuant to NAFTA, it is the responsibility of the Supplier as the exporter to provide Buyer with a completed and

signed NAFTA Uniform Certificate of Origin (either single-entry or a blanket certification), at the time of entry.

- (e) *Certificate of Conformance.* Supplier shall include with each shipment of Products a Certificate of Conformance as follows and Buyer will not accept shipments of Products that do not contain a properly executed Certificate of Conformance:

I certify that on [insert date], the [insert Supplier's name] furnished the supplies or services called for by Purchase Order No. [insert Purchase Order number] via [insert Carrier] on [identify the bill of lading or shipping document] in accordance with all applicable requirements. I further certify that the supplies or services are of the quality specified and conform in all respects with the contract requirements, including specifications, preservation, packaging, packing, marking requirements and physical item identification (part number), and are in the quantity shown on this or on the attached acceptance document. I further certify that, except as stated below, the supplies have been mined, produced, or manufactured in the United States and, if the supplies contain specialty metals, the supplies comply with the restrictions on specialty metals, as implemented through the Department of Defense Federal Acquisition Regulation Supplement.

Date of Execution: \_\_\_\_\_  
Signature: \_\_\_\_\_  
Title: \_\_\_\_\_

The following Products supplied under this Purchase Order have not been mined, produced, or manufactured in the United States:

Item Number or Identifier: \_\_\_\_\_  
Country of Manufacture: \_\_\_\_\_

- (f) *Other Product Marking-Related Obligations.* By accepting this Purchase Order, Supplier agrees that it shall, upon Buyer's request:
  - i. Reasonably support efforts to private label Products it sells to Buyer (i.e., to mark those Products and/or their packaging with trademarks, logos or other markings of or specified by Buyer) and/or to neutral label Products it sells to Buyer (i.e., to not place any trademarks, logos or other markings, except for any markings that may be legally required (such as country of origin requirements), on the Products it sells to Buyer and/or their packaging); and
  - ii. Remove any or all manufacturer's trademarks, logos or other markings from the Products it sells to Buyer and/or their packaging, except for any markings that may be legally required.

7. Documentation. All documentation specified by this Purchase Order, or otherwise to be delivered in connection with any Products, shall be delivered in accordance with the terms hereof and shall be in English. Any and all expenses, changes and claims incurred as a result of improper documentation shall be Supplier's responsibility. All correspondence and references to this Purchase Order must include the Purchase Order number and name of the Buyer designated to receive delivery of the applicable Products. Imported Products shall be subject to such additional documentation requirements as Buyer may deem necessary.

8. Inspection and Rejection. All Products purchased hereunder shall be received subject to Buyer's inspection and acceptance or rejection. Such inspection of the Products by Buyer shall be at Buyer's premises unless otherwise agreed by Buyer in writing, and may be completed at any time within a reasonable period after receipt at Buyer's premises; provided, however, that at Buyer's option, inspection may be made under operating conditions within a reasonable period after

incorporation of the Products into any plant, facility, vehicle, equipment or other product of which such Products are to be a part. Buyer reserves the right to hold for Supplier or return to Supplier rejected Products, and all expenses incurred by Buyer in doing so, including inspection, storage, transportation, handling and processing costs, shall be borne by Supplier. Payment for any Products prior to inspection shall not constitute acceptance of such Products; acceptance shall be deemed to have occurred only after Products have passed Buyer's inspection. Any inspection, testing or other evaluation by Buyer shall in no way affect, waive or invalidate any of Supplier's warranties in respect of the Products or any of Buyer's other rights or remedies hereunder or at law.

9. Risk of Loss; Title Transfer; Security Interest. In addition to bearing all risks required by law, Supplier shall bear all risks of loss of or damage to the Products until Supplier has completed all of its delivery obligations with respect to those Products, as provided in the Delivery Terms or as otherwise instructed by Buyer, at which point risk of loss of or damage to such Products shall pass to Buyer. Title to Products will transfer to Buyer when risk of loss of or damage to those Products passes to Buyer; provided, however, that title transfer shall not constitute acceptance of the Products by Buyer. Supplier shall bear all risks of loss or damage with respect to any Products that are rejected by Buyer after inspection, and title to such Products shall transfer back to Supplier upon rejection. If Buyer makes any payment before Buyer's receipt of the Products, Supplier hereby grants Buyer a security interest in and charge against the Products and all proceeds thereof to secure Supplier's performance of its obligations hereunder, and Supplier agrees to execute and deliver such documents to Buyer as Buyer may request to ensure the enforceability of such security interest and charge. Buyer is hereby authorized to prepare and file financing statements and other documents in order to perfect and maintain such security interest and charge.
10. Changes.
- (a) Only Buyer's authorized Purchasing Representative has authority to make changes in, to amend or to modify a Purchase Order on behalf of Buyer. Supplier shall not implement any changes or modifications to this Purchase Order without first having received written authorization to do so from Buyer's authorized Purchasing Representative.
- (b) Buyer's program, operations, engineering, technical or other personnel may from time to time render assistance, give technical advice or discuss or exchange information with Supplier's personnel concerning the Products hereunder and such actions shall not be deemed to be a change under this clause nor be the basis for an equitable adjustment. If Supplier believes any such assistance, advice or communications create an actual or constructive change, Supplier shall immediately notify Buyer's authorized Purchasing Representative and shall not accept such assistance or follow said advice or communications unless authorized by Buyer's Purchasing Representative in writing.
- (c) If Supplier is selling goods to Buyer under the Purchase Order, then by written notice to Supplier, Buyer may from time to time require changes in one or more of the following: (i) packing or methods of shipment; (ii) specifications for and designs of the Products ordered hereunder; (iii) quantity(ies) of Products to be delivered; and (iv) location(s) or date(s) of delivery. If Supplier is performing services for Buyer under the Purchase Order, by written notice to Supplier, Buyer may from time to time require changes in one or more of the following: (i) description of services to be performed; (ii) time of performance (i.e., hours of the day, days of the week, etc.); and (iii) place of performance of the services. Supplier shall immediately notify Buyer in writing if any such change affects Supplier's delivery schedule or Supplier's costs of performance. Any adjustment in prices or other terms resulting from such changes shall be binding only if and when agreed upon in writing by Buyer and Supplier. If such change is directed by Buyer's customer under the Prime Contract, Buyer's right to direct such changes shall be in accordance with FAR clause 52.243-1, Changes – Fixed-Price, Alternate II or FAR

clause 52.243-2, Changes – Cost-Reimbursement, Alternate II (as applicable), and Supplier's rights and obligations shall be governed by such applicable FAR clause, as modified in Article II of these Terms and Conditions. Failure to agree to any adjustment arising from a change under this Section 10 shall be a dispute under the Disputes clause of this Purchase Order. If so directed by Buyer, Supplier must proceed with the Purchase Order as changed, even if a dispute pertaining to any adjustment is pending between the parties.

11. Compliance with Laws

- (a) *General Compliance.* Supplier hereby represents, warrants, certifies and agrees that all work performed, and all Products delivered to Buyer, pursuant to this Purchase Order shall be performed, provided, manufactured, produced, assembled, packaged, labeled, shipped, delivered, invoiced, sold and – if required – registered, in accordance and compliance with all applicable federal, national, state, provincial, municipal and local laws, orders, rules, ordinances and regulations, including without limitation the following (unless and to the extent Supplier has demonstrated to Buyer's reasonable satisfaction that Supplier is exempt from any of the following):
- i. Applicable data privacy and security laws and regulations;
  - ii. Sections 6, 7, 12, 13, 15 and 18 of the federal Fair Labor Standards Act, as amended, and regulations and orders of the U.S. Department of Labor issued under Section 14 of said Act;
  - iii. The National Traffic and Motor Vehicle Safety Act of 1966, and the Federal Motor Vehicle Safety Standards promulgated thereunder, all as amended; and
  - iv. The federal Clean Air Act, Title 42, Chapter 85, Subchapter II, Emission Standards for Moving Sources, 42 U.S.C. §§ 7521-7590, and the regulations promulgated thereunder, all as amended.
- (b) *Hazardous Materials.* With respect to each shipment or other delivery of Products hereafter made by Supplier to Buyer, Supplier hereby represents, warrants, certifies and agrees that all such Products are, as of the date of such shipment or delivery not a misbranded or banned hazardous substance within the meaning of the Federal Hazardous Substances Act, 15 U.S.C. § 1261 et seq., and the regulations promulgated thereunder, all as amended. In addition to the foregoing, Supplier agrees that it has implemented and shall maintain an acceptable pollution prevention and waste minimization plan that, in the sole discretion of Buyer, satisfies all of the standards of the industry in which Supplier operates. This plan shall also address shipping and packaging materials for Products purchased by Buyer, and shall include environmental sustainability provisions satisfactory to Buyer.
- (c) *REACH Regulation.* If applicable, Supplier hereby confirms that each Product supplied to Buyer complies with all of the requirements in Regulation (EC) No. 1907/2006, as may be amended from time to time, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH"). Supplier also hereby confirms that it understands and agrees to fully comply at its cost with all of its obligations under REACH and under all other related or comparable national, federal, state, provincial, municipal and local laws, regulations and requirements globally, as they may be amended from time to time. Supplier shall, upon Buyer's request, provide written confirmation of compliance with REACH, including providing copies of any applicable registration information or Safety Data Sheets. Supplier shall inform Buyer in writing as soon as reasonably possible if there are changes under REACH, including registrations or new chemicals, which impact any of the Products Supplier provides to Buyer. Supplier shall be solely responsible for all REACH compliance costs associated with the

Products. If Supplier fails to comply with the applicable obligations imposed by REACH or the related or comparable national implementing laws of any individual European Union member state(s) or fails to fulfill any of the other compliance obligations in the Purchase Order, Supplier shall indemnify and hold harmless Buyer and the other Buyer Indemnified Parties from and against any and all Losses (as those terms are defined in the Indemnification section below) arising from, or relating to, such non-compliance.

- (d) *WEEE; RoHS*. Supplier also hereby confirms that, if applicable, it understands and agrees to fully comply with all of its obligations under EU Directive 2012/19/EU on waste electrical and electronic equipment (“WEEE”) and EU Directives 2011/65/EU and 2015/863/EU on the restriction on the use of certain hazardous substances in electrical and electronic equipment (generally referred to as “RoHS”), and under all other related or comparable national, federal, state, provincial, municipal and local environmental laws, regulations and requirements globally, as they may be amended from time to time. Supplier warrants that, if applicable, all substances included in the Products to be supplied to Buyer under this Purchase Order, and all activities associated with the design, manufacture, testing and storage of said Products, shall comply with all applicable WEEE and RoHS Directives and all related or comparable national, federal, state, provincial, municipal and local governmental authorities, laws, regulations, and requirements throughout the world, as applicable. If Supplier fails to comply with any of the applicable obligations imposed by the WEEE and/or RoHS Directives or the related or comparable national implementing laws in individual European Union member states, Supplier shall indemnify, defend and hold harmless Buyer and the other Buyer Indemnified Parties (as defined below) from and against any and all Losses (as defined below) arising from, or relating to, such non-compliance.

(e) *Conflict Minerals*

- i. Buyer advises Supplier that Buyer is required to comply with Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the implementing regulations issued by the United States Securities and Exchange Commission (together the “Act”). Supplier must comply with the provisions of this paragraph (e) to ensure that Products do not include conflict minerals sourced from mines or smelters in the Democratic Republic of the Congo (“DRC”) or an adjoining country that are providing financial support to groups who are operating in violation of human rights. In addition, Supplier acknowledges that Buyer will rely on the accuracy and completeness of information that Supplier furnishes to Buyer as the basis for Buyer’s decisions regarding its compliance with the Act and its disclosures under the Act. The terms “adjoining country”, “conflict mineral”, and “conflict minerals from recycled or scrap sources”, and variations of those terms, are used herein as those terms are defined for purposes of the Act. As of July 31, 2018, the term “conflict mineral” includes columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, limited to tantalum, tin, and tungsten. That definition is used here unless the U.S. Secretary of State determines and publishes a list of additional derivatives financing conflict in the DRC or an adjoining country and states that the Act applies to those minerals as well.
- ii. Supplier represents, warrants, covenants and certifies that it has adopted supply chain policies and processes that will require: (1) a reasonable inquiry into the country of origin of conflict minerals incorporated into Products it sells to Buyer to determine whether any conflict minerals are from the DRC or adjoining countries or are not conflict minerals because they are known not to be from the DRC region/adjoining countries or are known to be from recycled or scrap sources; (2) due diligence of Supplier’s supply chain, as necessary, to determine where conflict minerals were sourced, including whether the source of any conflict minerals was certified as conflict-free by the EICC or a similarly-recognized certification agency; and (3) disclosure of the findings of the country of origin

inquiry and due diligence to Buyer as it becomes available or in response to Buyer's request.

- iii. Supplier further agrees to take all other measures reasonably requested by Buyer to enable Buyer to comply with the Act, including its implementing regulations, as they may be amended over time. Specifically, Supplier agrees: (1) to respond to each request from Buyer by certifying in writing to Buyer whether Supplier is complying with this paragraph (e); (2) to provide Buyer with such information regarding the source and chain of custody of all conflict minerals that may be contained in Products furnished hereunder as Buyer may request from time to time and to certify in writing as to the accuracy and completeness of such information; (3) to cooperate promptly as requested by Buyer with Buyer's efforts to comply with the Act, including permitting Buyer, at any time, to review Supplier's processes, procedures and all other documentation regarding Supplier's obligations to comply with this paragraph (e); and (4) without limiting Supplier's obligations to comply fully with this paragraph (e) for Products furnished under this Purchase Order, to use commercially reasonable efforts to cause its subcontractors and sub-suppliers of every tier to provide Buyer and Supplier with the information and cooperation that Supplier is required to provide under this paragraph (e).
- (f) ***Equal Employment Opportunity.* Buyer and Supplier shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a), 60-741.5(a) and 29 CFR Part 471, Appendix A to Subpart A. These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or expression, or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity or expression, national origin, protected veteran status or disability. Supplier shall include this paragraph (f) in each lower-tier subcontract it issues.**

12. Anti-Corruption Laws.

- (a) ***Definition.*** "Anti-Corruption Laws" means the United States Foreign Corrupt Practices Act of 1977, as amended, the UK Bribery Act 2010, as amended, any applicable laws, rules, regulations or orders implementing the Organisation for Economic Co-operation and Development (OECD) Convention on Combating Bribery of Foreign Public Officials in International Business Transactions, and all other anti-corruption laws, rules, regulations, ordinances and orders in any applicable jurisdiction.
- (b) ***Certification.*** Supplier hereby agrees and certifies that neither it, nor any of its directors, officers, agents, affiliates, or employees shall: (i) use any funds for unlawful contributions, gifts, entertainment or other unlawful expenses related to political activity; (ii) make any unlawful payment or unlawfully offer anything of value to foreign or domestic government officials or employees or to foreign or domestic political parties or campaigns; (iii) offer, give or promise to give a financial or other advantage to another individual or entity in exchange for improperly performing any function of a public nature; any activity connected with a business, trade or profession; any activity performed in the course of an individual's employment; or any activity performed by or on behalf of a body of persons whether corporate or unincorporated; (iv) make any other unlawful payment; or (v) violate any applicable export control, money laundering or antiterrorism law or regulation, nor will any of them otherwise take any action, or to fail to take any action, which action or failure would cause Supplier or Buyer to be in violation of any laws,

rules, regulations, ordinances or orders, including any Anti-Corruption Laws. Any breach of any of the provisions of this Section 12 shall entitle Buyer to terminate the Purchase Order immediately upon notice to Supplier.

- (c) *Investigation.* In the event that Buyer has a reasonable factual basis to believe that Supplier has taken or failed to take any action that may subject Buyer to liability under any applicable law, rule, regulation, ordinance or order, including any applicable Anti-Corruption Law, Supplier agrees Buyer shall have the right, upon written notice to Supplier, to conduct an investigation and audit of Supplier to determine to Buyer's reasonable satisfaction whether or not any action(s) or failure(s) to act by or on behalf of Supplier may subject Buyer to liability under any Anti-Corruption Law or any other law, rule, regulation, ordinance or order. Supplier agrees to cooperate fully with each such investigation, the scope, method, nature and duration of which shall be at the sole reasonable discretion of Buyer.
- (d) *Policy.* With respect to any gift, entertainment or gratuity, Supplier represents and warrants that it shall comply with the Oshkosh Gift and Gratuity Policy in Section N of the Supplier Standards Guide, as it may be amended from time to time. In addition, Supplier represents and warrants that it shall comply with all laws, rules, regulations, policies, directions and other measures of applicable countries relating to gifts, entertainment, hospitality and other benefits conferred on public office holders of applicable countries and that it shall offer no benefit to a public office holder that could reasonably be construed as an inducement or encouragement for a public office holder to breach any legal or policy duties incumbent on him or her.
- (e) *Audits.* Supplier shall retain and preserve all records and materials relating to its performance under this Purchase Order, including invoice records, for a period of three (3) years after final payment under the Prime Contract or for the period prescribed by applicable law, whichever period is longer. Supplier shall include this clause in all contracts with lower-tier subcontractors and suppliers. During Supplier's performance of the Purchase Order and for up to three (3) years after final payment under the Purchase Order, upon reasonable notice and during normal business hours, Buyer, its customer(s) and/or their respective independent auditors (the "Auditors"), shall have the right to audit Supplier's and its subcontractors' and suppliers' compliance with the requirements of the Purchase Order and to confirm Supplier's compliance with applicable laws, rules and regulations in its performance of the Purchase Order. Supplier shall provide the Auditors with access to all documents, records, personnel and information requested by the Auditors pertaining to Supplier's performance of the Purchase Order. Audits may include, but are not limited to: (i) the accuracy of Supplier's invoices; (ii) the accuracy of any representations, warranties and certifications under this Purchase Order; (iii) the accuracy of reports prepared by Supplier; and (iv) Supplier's compliance with applicable laws, rules and regulations. During any audit, if any invoice submitted by Supplier is found to be in error, in Buyer's sole discretion, Buyer may make an appropriate adjustment to the invoice or the next succeeding or new invoice following the discovery of the error, or Supplier will otherwise repay the amount of any overbilling. Supplier shall promptly correct any other deficiencies discovered as a result of any such audit at Supplier's sole cost and expense.
13. Sameness Requirement; Changes in Design, Processes or Manufacturing Location. Supplier warrants that the Products supplied to Buyer shall be uniform and that there shall be no change in design that would adversely affect the form, fit, finish, functionality or serviceable parts of the Products being supplied. A "change in design" shall include any change in materials, material characteristics or components, as well as any dimensional changes, following Buyer's first article approval. In no event shall Supplier make any change in design of any Product to be sold to Buyer without Buyer's prior written consent, which may be granted or withheld in Buyer's sole discretion. Supplier shall provide written notice to Buyer of any proposed change in design, which notice shall include the reason for such change and a description of the manner in which such change will or will not affect the form, fit, finish, functionality or serviceable parts of any of the Products, supported

by testing and analysis. Supplier shall be solely liable for any and all Losses (as defined below) incurred by Buyer or any other Buyer Indemnified Parties as a result of any change in design by Supplier that was not consented to in advance in writing by Buyer, and all such Losses shall be debited to Supplier's account and/or shall be payable by Supplier upon demand by Buyer. In addition, Supplier shall not make any change to any of its manufacturing processes or manufacturing location(s) for the Products to be sold to Buyer without prior notification to and written approval from Buyer.

14. Warranty.

- (a) *Goods.* With respect to all Products purchased hereunder that are goods, Supplier warrants that: (1) Buyer shall receive good title to all such goods free and clear of all liens, encumbrances and security interests; (2) all such goods shall be free from all defects in materials and workmanship, shall be of good and merchantable quality, shall conform exactly to, and shall have been manufactured, produced, assembled, packaged, labeled, shipped, delivered, invoiced and sold in strict accordance with, Buyer's specifications, drawings and designs, shall (in the case of goods manufactured by Supplier in accordance with Supplier's own designs) be free from all defects in design, and shall (unless otherwise set forth on this Purchase Order) be made from new and unused materials and components; and (3) all such goods shall comply, and shall have been manufactured, produced, assembled, packaged, labeled, shipped, delivered, invoiced and sold or otherwise provided in compliance with all applicable federal, national, state, provincial, municipal and local laws, orders, rules, ordinances and regulations.
- (b) *Services.* With respect to all Products that are services, Supplier warrants that: (1) all such services shall be provided in a professional, workmanlike and timely manner and in accordance with industry standards applicable to a world-class provider of such services, by competent, experienced personnel who are properly trained and supervised; (2) all such services shall be performed to the reasonable satisfaction of Buyer and be suitable for their intended purpose; and (3) all such services shall be performed in compliance with all applicable federal, national, state, provincial, municipal and local laws, orders, rules, ordinances and regulations.
- (c) *Technology Products.* With regard to Products comprised of software or other technology ("Technology Products"), Supplier further warrants as follows: (a) it uses industry best practices to ensure and to the best of Supplier's knowledge, Technology Products do not contain any virus, worm, Trojan horse, or similar malware or destructive code that may destroy, modify, alter, or cause the destruction, modification or alteration, in whole or in part, of any Buyer equipment, devices, software, or data or permit unauthorized access to any of the foregoing, including the Technology Products; (b) unless expressly agreed otherwise in a signed writing, no Technology Products will contain any "phone-home", metering, or other feature designed to periodically transmit usage, statistical or other data to Supplier; and (c) neither Supplier nor any of its agents, contractors, or employees or anyone acting on their behalf, will disable or interfere, in whole or in part, with use of the Technology Product or any software, hardware, systems or data owned, utilized or held by Buyer without the written permission of a corporate officer of Buyer, whether or not the disablement is in connection with any dispute between the parties or otherwise. Supplier further warrants that no Technology Products will contain Open Source Software, as defined below, without Buyer's prior express written authorization. In any event, no Open Source Software furnished to Buyer will contain any orphaned code, as defined below, and no hardware or software Technology Products, including operating systems and embedded software, or any component thereof contain any hardware or software designated prior to the date of the relevant Purchase Order as end-of-life (i.e., to no longer be supported and updated by the manufacturer or licensor). For purposes of this Section, "orphaned code" means software that (a) has had more than one (1) year since its last release, (b) does not have an identified individual responsible for supporting and maintaining the code, or (c) the identified individual's contact information is no longer valid. For purposes of this provision, "Open Source Software" means any software, programming, or other intellectual

property that is subject to (i) the GNU General Public License, GNU Library General Public License, Artistic License, BSD license, Mozilla Public License, or any similar license, including, but not limited to, those licenses listed at [www.opensource.org/licenses](http://www.opensource.org/licenses) or (ii) any agreement with terms requiring any intellectual property owned or licensed by Buyer to be (a) disclosed or distributed in source code or object code form; (b) licensed for the purpose of making derivative works; or (c) redistributable. Supplier will conduct application security assessment review(s) to identify common security vulnerabilities as identified by industry-recognized organizations (e.g., OWASP Top 10 Vulnerabilities; CWE/SANS Top 25 vulnerabilities) for all major releases, as determined by Buyer, of the Technology Products, but in any event no less than every twelve (12) months or in the event a new vulnerability is identified by one of the foregoing organizations. Supplier will focus the scope of the security assessment on application security, including, but not limited to, a penetration test of the Technology Product, as well as a code review of the Technology Product. Supplier shall, at its sole expense, either (i) use the third party firm specializing in code reviews identified by Buyer to conduct the foregoing security assessments or (ii) conduct the security assessment review itself, provided that Supplier Personnel performing the review are experienced in conducting reviews of this kind, hold an industry-recognized certification in security assessments for software (e.g., Certified Secure Software Lifecycle Professional (CSSLP) or GIAC Secure Software Programmer certification), follow industry standard best practices for such assessments, assessment results are promptly shared by Supplier with Buyer's designated agent for review and approval by Buyer. Supplier shall at its sole expense remediate all vulnerabilities identified and rated as a result of the assessment as medium or higher (or other similar designation) (i) prior to a new version of the Supplier Software being introduced to production environments, and (ii) for a version of the Technology Product currently in production within thirty (30) to ninety (90) days based on criticality of the vulnerability identified from the assessment. In addition to all other security obligations under this Agreement, Supplier warrants it shall test all Technology Products, including all embedded third party software, in accordance with best industry practices, but in no event less than on a quarterly basis, for any vulnerability or exposure identified in Mitre's Common Vulnerabilities and Exposures ("CVE") located at <http://cve.mitre.org> and having a Common Vulnerability Scoring System ("CVSS") score of [**\*\* Specify 4-7 \*\***] or higher (as published by the NIST National Vulnerability Database, located at <http://nvd.nist.gov>). In the event such a vulnerability with a CVSS score is identified, Supplier shall, at no additional charge to Buyer, promptly remediate the vulnerability. Supplier shall keep complete and accurate records of its testing and remediation activities under this Section.

- (d) *Remedies.* The foregoing warranties shall survive inspection, delivery, performance, acceptance, payment and completion or termination of this Purchase Order and shall run in favor of Buyer and its customers, both direct and indirect. If any Products furnished under this Purchase Order shall be found to be defective or inferior in quality, or not to conform to Buyer's specifications or to Supplier's warranties during the applicable Warranty Period (as defined below), Buyer shall have all rights and remedies available to it under this Purchase Order and under applicable law. Without limiting the foregoing, Buyer shall also have the right:
- i. With respect to such defective or nonconforming Products that are goods, to: (1) cancel any unshipped portions of any such Purchase Order, and/or return any such defective or nonconforming goods to Supplier at Supplier's expense; and/or (2) retain and rework or repair any such defective or nonconforming goods, in which case Supplier shall reimburse Buyer on demand for material, labor, travel and freight charges associated with the rework or repair, with all such charges calculated at Buyer's then-current rates; and/or (3) cover by purchasing replacement goods from another vendor, in which case Supplier shall reimburse Buyer for the amount (if any) by which the cost of such goods exceeds the contract price of the defective or nonconforming goods hereunder, along with all other cover damages; and/or (4) impose upon Supplier any predetermined charge-back associated with such defective or nonconforming goods that may have been agreed upon by Supplier and Buyer, and if Buyer imposes such charge-back, Supplier shall within fifteen

- (15) days, pay to Buyer the amount of such charge-back. Buyer shall also be reimbursed by Supplier for all of its costs and expenses in connection with the inspection, storage, handling, packing and/or transporting of any such defective or nonconforming goods, and Supplier shall assume all risk of loss or damage in transit to such goods returned by Buyer pursuant hereto.
- ii. - (e) *Notice.* In the event Supplier becomes aware of any circumstance that would reasonably cause Supplier to believe that any of its warranties may have been breached or that it may not be capable of delivering Products which conform to such warranties set forth in this Section 14, Supplier shall immediately notify Buyer in writing of the problem and the extent of such problem.
- (f) *Warranty Period.* For purposes of this Purchase Order, "Warranty Period" means the period commencing upon the date on which the applicable Product was delivered to or performed for Buyer and expiring on the later to occur of: (i) two (2) years after the date on which such Product was delivered to or performed for Buyer; or (ii) two (2) years after the date on which the vehicle, equipment or other product into which such Product is installed or incorporated is delivered by Buyer to its customer, but not later than the third anniversary of the date on which such Product was delivered to or performed for Buyer. Notwithstanding anything in the immediately preceding sentence to the contrary, if Supplier's standard warranty with respect to any particular Product would continue beyond the expiration of the Warranty Period as determined in accordance with that sentence, then the Warranty Period for that Product shall be deemed to be of the same duration as Supplier's standard warranty. Notwithstanding anything in these Terms and Conditions to the contrary, in the event and to the extent that Supplier and Buyer agree in a separate written warranty agreement or on the face of this Purchase Order to a different warranty and/or Warranty Period for Products purchased by Buyer pursuant to this Purchase Order, such different warranty and/or Warranty Period shall be controlling with respect to those Products.

Supplier shall immediately notify Buyer in the event of: (i) the commencement of any proceedings, voluntary or involuntary, under any bankruptcy, insolvency, receivership or other debtor relief law by or against Supplier as debtor; (ii) the appointment, with or without Supplier's consent, of a receiver, administrator or trustee for Supplier or all or some of its assets; (iii) an assignment by Supplier for the benefit of Supplier's creditors; (iv) Supplier's ceasing to conduct its operations in accordance with accepted business practices (including inability to meet its obligations as they mature); or (v) Supplier's otherwise becoming insolvent. If any of the events described in (i) through (v) of the preceding sentence occurs, then Buyer shall be entitled to elect to cancel any unfilled part of this Purchase Order without any liability whatsoever to Buyer. If Buyer so elects to cancel, Buyer may, at Buyer's sole election, pay Supplier its actual direct out-of-pocket costs of performance hereunder to the date of such cancellation, as such costs are approved by Buyer, in which event the Products or uncompleted portions of the Products shall be the sole property of Buyer, and Supplier shall safely hold the same for a reasonable time subject to receipt of Buyer's written shipping instructions or other disposition instructions. Buyer shall be entitled to

remove such Products and portions of Products, together with the Buyer Property (as defined below), from Supplier's facility upon notice to Supplier, and Supplier shall make such items available for pick up by Buyer.

16. Indemnification.

- (a) *General Indemnity.* Supplier shall indemnify, defend and hold harmless Buyer and its parent companies, subsidiaries, affiliates, shareholders, members, partners, directors, managers, officers, employees, insurers, agents, customers, successors and assigns (collectively, the "Buyer Indemnified Parties") from and against any and all claims, demands, actions, losses, injuries, damages, liabilities, obligations, penalties, costs and expenses, including attorneys' fees, experts' fees and other costs of defending any claim, demand or action and costs of recalls, field campaigns and other corrective actions (collectively, "Losses"), which any Buyer Indemnified Party(ies) may incur or become liable for as a result of, on account of or in connection with: (i) any actual or alleged default or breach by Supplier or any of its employees, agents or subcontractors of any of Supplier's warranties or any of Supplier's other obligations under this Purchase Order; (ii) any actual or alleged act or omission by Supplier or any of its employees, agents or subcontractors in performing any of Supplier's obligations under this Purchase Order; (iii) any defects or alleged defects in any Product or arising from the nature of the material contained in any Products (except to the extent any such defect was specifically due to a design that was furnished to Supplier by Buyer); (iv) any actual or alleged negligence, intentional misconduct or fraud by Supplier or any of its employees, agents or subcontractors; or (v) any actual or alleged failure on the part of the Products or of Supplier or its employees, agents or subcontractors, to comply with any applicable federal, national, state, provincial, municipal or local laws, orders, rules, ordinances or regulations, including, without limitation, the FAR clauses and FAR agency supplemental clauses contained in Article II herein.

Supplier shall indemnify, defend and hold harmless Buyer and its customers (whether direct or indirect) and the other Buyer Indemnified Parties from and against any and all Losses which they, or any of them, may sustain or incur as the result of any breach of this warranty. The foregoing warranty shall not apply, however, if and to the extent an infringement is proven to have been caused by Supplier manufacturing Products in strict accordance with design(s) provided by Buyer to Supplier.
- (c) *Indemnification Procedures.* Buyer will notify Supplier of any Losses of which it has knowledge that are or may be subject to any of Supplier's indemnification obligations. Buyer shall make available to Supplier all information and assistance as Supplier may reasonably request in connection with satisfying its indemnification duties, at Supplier's expense. Buyer shall have the right to participate in the defense of any claims, demands or actions that are subject to any of Supplier's indemnification obligations, or to assume and control the defense of any such claim, demand or action, all at the expense of Supplier. Supplier may not settle any such claim, demand or action without the prior written consent of Buyer (such consent not to be unreasonably withheld or delayed). Notwithstanding anything to the contrary herein, if in the opinion of Buyer or any other Buyer Indemnified Party, any claim, demand or action involves either the potential imposition of criminal liability on any Buyer Indemnified Party, or a conflict of interest between a Buyer Indemnified Party and Supplier as the indemnifying party, then Supplier shall not assume the defense; instead, Buyer shall assume and control the defense, all at the expense of Supplier.

  - iv. Supplier shall be responsible for all costs incurred by both parties in the claim proceedings.
- (c) Disposition of a claim under the procedure provided in the Prime Contract shall be final and conclusive between the parties. Pending final disposition of any claim decided by the Contracting Officer and any appeal from the Contracting Officer's final decision, Supplier shall proceed diligently with performance of this Purchase Order in the manner directed by Buyer.
- (d) If and to the extent that any dispute or claim arising under or relating to this Purchase Order which is not settled by agreement between the parties does not involve a claim that is cognizable under the Disputes Clause of the Prime Contract, as part of the consideration for the execution hereof by Supplier, it is hereby agreed that any dispute between Supplier and Buyer involving the subject matter of this Purchase Order that is not resolved through good faith negotiations of the parties shall be litigated only in the state or federal courts located within the State of the United States of America in which Buyer is headquartered on the date of this Purchase Order, and Supplier and Buyer consent to the exclusive jurisdiction of any such court(s). Supplier acknowledges that Oshkosh Corporation, Oshkosh Defense, LLC and Pierce Manufacturing are headquartered in the State of Wisconsin, U.S.A., the McNeilus companies are headquartered in the State of Minnesota, U.S.A., and JLG Industries is headquartered in the Commonwealth of Pennsylvania, U.S.A. Supplier additionally waives personal service of process, and further consents that such service of process may be made by certified or registered mail, return receipt requested, directed to Supplier at its address stated in this Purchase Order. If Supplier is headquartered or incorporated outside the United States of America, Supplier waives any and all service requirements under the Hague Convention (20 U.S.T. 361), and hereby agrees to accept service of process through any of its offices, representatives, subsidiaries, affiliates or agents located in the United States of America. If no such office, entity or person is located within the United States of America, Supplier shall appoint an agent for service of process within the United States of America.

21. Intellectual Property.

- (a) Supplier acknowledges and agrees that Buyer owns and shall retain all rights, title and interest in and to the intellectual property rights that are embodied in or relate to the designs, drawings,

bills of material, requirements documents, and specifications provided by Buyer to Supplier (the "Buyer IP"), and that such Buyer IP shall include without limitation all patent rights, trademarks, trade names, trade dress, inventions, discoveries, developments, improvements, modifications, copyrights, technical data, know-how, trade secrets and the like incorporated in or relating to the design, manufacture, production, assembly, operation, use or sale of Products that are designed by or on behalf of Buyer or that are manufactured, assembled or produced by Supplier using any designs, drawings, bills of material, requirements documents, or specifications of Buyer. Supplier hereby specifically acknowledges and agrees that: (i) the Buyer IP is confidential and proprietary to Buyer; and (ii) Supplier does not and shall not have, nor will it claim to have, any proprietary rights in or to any of the Buyer IP. The sole right which is granted to Supplier regarding the Buyer IP is to use the Buyer IP to manufacture the Products for sale to Buyer strictly in accordance with the terms and conditions of this Purchase Order, and Supplier shall not claim any other right in, to or regarding any of the Buyer IP.

- (b) Buyer acknowledges and agrees that, subject to the U.S. Government's rights as specified in the FAR and FAR agency supplemental clauses incorporated by reference herein, Supplier shall retain all rights, title and interest in and to the intellectual property rights that are embodied in Supplier's own proprietary Product designs, drawings and specifications, and such rights shall not form part of the Buyer IP.
- (c) Supplier agrees and warrants that it shall not offer, sell or transfer any Products that: (i) incorporate or are based in whole or in part upon any Buyer IP; or (ii) were otherwise designed or developed in whole or in part by or on behalf of Buyer or any of Buyer's affiliated companies; or (iii) were designed or developed by Supplier specifically for a Buyer application through development efforts that involved input or assistance from Buyer or any of its affiliated companies, to any person or entity other than Buyer or one of its affiliated companies, without the prior written consent of Buyer.
- (d) Supplier agrees and warrants that it shall not: (i) sell any Product by reference to its "[Buyer] part number" or "Oshkosh part number" or the like to any person or entity other than Buyer or one of its affiliated companies; or (ii) create or utilize a cross-reference tool or system for any Products referencing a Buyer part number or Oshkosh part number.

22. Force Majeure Events. Neither party shall be liable to the other for any delay in or failure of performance of any of its obligations under this Purchase Order if and to the extent such delay or failure is caused by fires, floods, epidemics, quarantine restrictions, freight embargoes, unusually severe weather, strikes (excluding strikes by the employees of such party or its affiliates), war, acts of terrorism, acts of God or the public enemy, acts of the U.S. Government in either its sovereign or contractual capacity, or any other similar or dissimilar cause that is beyond its reasonable control and without its fault or negligence, and that could not have been reasonably avoided by it (each such event, a "Force Majeure Event"); provided, however, that a party affected by any such Force Majeure Event shall: (i) immediately notify the other party in writing of such Force Majeure Event and indicate the expected duration of such interruption; (ii) continue performing those of its obligations that are not affected by the Force Majeure Event; and (iii) make all commercially reasonable efforts to remove or overcome the effects of such Force Majeure Event and resume full performance as promptly as possible. If the failure to perform is caused by the default of a subcontractor at any tier, and the cause of the default is beyond the control of both Supplier and its subcontractor, and without the fault or negligence of either, Supplier shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for Supplier to meet the required delivery or performance schedule. A party's performance shall be excused by a Force Majeure Event only for the duration of such Event. Notwithstanding anything herein to the contrary, Buyer shall have the right to terminate this Purchase Order in the case of a Force Majeure Event affecting Supplier under the circumstances set forth in Section 23 below.

23. Termination/Cancellation.

(a) *Buyer's Termination for Convenience.* Buyer may terminate all or any undelivered portion of this Purchase Order for convenience, without cause, at any time. In the event of any such termination for convenience, Buyer's liability to Supplier shall be limited to reimbursing Supplier for its actual out-of-pocket costs for work and materials applicable solely to the terminated portion of this Purchase Order, which were expended before notice of termination was received by Supplier (not to exceed the contract price attributable to the terminated portion), reduced by the fair market value of such work-in-process and materials. Supplier shall provide Buyer with all records, documents and other information used to calculate such out-of-pocket costs for work and materials and their fair market value. If the termination for convenience was a result of a termination or change directed by the U.S. Government under the Prime Contract, Supplier shall comply with the termination settlement and property disposition requirements set forth in FAR clause 52.249-2, Termination for Convenience of the Government (Fixed-Price) or FAR clause 52.249-6, Termination (Cost Reimbursement) as applicable and as modified in Article II herein.

(b) *Buyer's Termination for Cause*

(i) Buyer may terminate this Purchase Order for cause by providing written notice of default to Supplier if Supplier: (1) fails to deliver any Products to be delivered hereunder by the delivery date(s) specified herein, or any extensions of such delivery date(s) authorized by Buyer in writing; (2) fails to promptly replace or correct defective or nonconforming Products as may be required by Buyer; (3) fails to comply with any applicable federal, national, state, provincial, municipal or local laws, orders, rules, ordinances or regulations; (4) fails to make progress so as to endanger timely performance of the Purchase Order or fails to perform any of the other provisions of the Purchase Order, and fails to cure such failure within seven (7) days after receipt of notice from Buyer specifying such failure; (5) breaches any warranty, representation, covenant, agreement or obligation of Supplier contained in this Purchase Order, and fails to cure such breach within seven (7) days after receipt of notice from Buyer specifying such breach; or (6) furnishes to Buyer any Products that Buyer concludes, in its sole opinion determined in good faith, contain any conflict mineral originating in the DRC or an adjoining country if Buyer has not specifically agreed in advance in writing that Supplier may furnish Products that contain such conflict mineral; such furnished Products shall also be deemed nonconforming.

(ii) In the event of termination of this Purchase Order by Buyer for cause, without limiting its other rights or remedies, Buyer may cover by purchasing goods or services elsewhere on such terms and in such a manner as Buyer may deem appropriate, and Supplier shall be liable to Buyer for the amount (if any) by which the cost of such goods or services exceeds the contract price of the affected Products hereunder, and all other cover damages, in addition to all other Losses arising from Supplier's breach or failure.

(c) *Supplier's Cancellation for Cause; Limitations of Buyer's Liability.*

(i) Supplier may terminate this Purchase Order for cause by providing written notice of default to Buyer if Buyer breaches any material covenant, agreement or obligation of Buyer contained in this Purchase Order and fails to cure such breach within 30 days after receipt of written notice from Supplier specifying such breach.

- (ii) Buyer's sole and exclusive liability to Supplier arising out of Buyer's breach of any covenant, agreement or obligation of Buyer contained in this Purchase Order shall be limited to Supplier's actual, direct damages directly resulting from the breach, not to exceed the contract price of the portion of the Purchase Order affected by the breach. **In no event shall Buyer be liable for any special, indirect, punitive, incidental or consequential damages, whether in contract, tort, negligence, strict liability or under any other theory of law or equity, under or arising out of this Purchase Order or its performance or breach, even if Buyer has been made aware of the possibility of such damages.** In the event Buyer withholds payment to Supplier for reasons claimed by Buyer as legally or contractually justified, Supplier shall have no right to terminate this Purchase Order unless and until either: (1) the issue of Buyer's withholding has been resolved against Buyer in accordance with Section 20 above (Disputes) or (2) Buyer has expressly waived in writing the application of said Section 20 to said matter.
- (d) If, after Buyer provides Supplier with a notice of default under paragraph (b) of this Section 23, it is determined that Supplier was not in default or that Supplier's failure to perform this Purchase Order was due to a Force Majeure Event and was therefore excused, said notice from Buyer shall be deemed to have been issued pursuant to paragraph (a) of this Section 23, and the rights and obligations of the parties hereto shall be governed by that paragraph. No such Force Majeure Event shall excuse Supplier, however, unless Supplier has notified Buyer in writing of the existence of the cause within ten (10) days after the beginning thereof.

24. Confidential Information.

- (a) If Buyer and Supplier have entered into a written non-disclosure agreement or confidential disclosure agreement that is still in full force and effect, then the terms and conditions of that agreement apply to this Purchase Order and supersede and replace the following paragraphs (b) – (i).
- (b) "Confidential Information" shall mean any and all designs, drawings, bills of materials, blueprints, dimensional data plans, devices, machinery, specifications, processes, techniques, practices, methods, technical data, strategies, technology, models, samples, prototypes, cost and price information, research and development information, test results and performance data, information regarding existing and future products and vehicles, programs and systems, computer software, know-how, expertise, trade secrets, business and financial records, plans and projections and other similar information, items, documents and materials made available by Buyer or its affiliates to Supplier, or otherwise acquired, obtained or developed by Supplier under or in connection with performance of this Purchase Order, or other orders performed for Buyer or its affiliates, whether in writing (including via electronic or magnetic media), orally, visually or by observation or overhearing, whether or not marked as confidential or proprietary, and whether or not in human-readable or machine-readable form, and including all Buyer IP and any and all such information that is derivable from any Buyer Property.
- (c) Supplier acknowledges that prior to or during performance of this Purchase Order or other orders performed for Buyer or its affiliates, Supplier may be given access to, or may otherwise acquire, obtain or develop, Confidential Information of Buyer. Supplier agrees that it shall keep all Confidential Information strictly secret and confidential, and to that end, without limiting the generality of the foregoing, Supplier shall cause all documents or materials incorporating, relating or referring to, or containing any such Confidential Information to be plainly marked to indicate the secret and confidential nature thereof and prevent unauthorized use or reproduction of either Confidential Information or documents and materials incorporating, relating or referring to, or containing the same. Supplier agrees that it shall not: (i) use any of the Confidential Information for any purpose other than performance of its obligations under

this Purchase Order; (ii) except as necessary for performance of its obligations under this Purchase Order, directly or indirectly print, copy or otherwise reproduce, in whole or in part, any Confidential Information without the prior written consent of Buyer; (iii) disclose or make available any of the Confidential Information to any person or entity other than those of its employees or agents who have a definable need to know such Confidential Information in order to allow Supplier to perform its obligations under this Purchase Order, provided that such employees or agents have executed written agreements restricting use or disclosure of such Confidential Information that are at least as restrictive as the Supplier's obligations under this Section 24; or (iv) disassemble, decompile or otherwise reverse-engineer any of the Confidential Information or facilitate any third party's efforts to take any action prohibited by this Section 24. The obligations and covenants of Supplier under this Section 24 are continuing and shall survive the completion or earlier termination or cancellation of this Purchase Order for a period of five (5) years; provided, however, that Supplier's covenants and obligations hereunder with respect to any Confidential Information that constitutes a trade secret under applicable law shall survive and continue until the later of the date on which such information no longer constitutes a trade secret or the date that is 5 years after the completion, termination or cancellation of this Purchase Order, and are also binding on Supplier's employees, officers, directors, agents, advisors and affiliates. All third parties to whom the Supplier reveals any Confidential Information, whether revealed in compliance with or in breach of Supplier's confidentiality obligations hereunder, shall be bound by the terms of, and be jointly and severally liable under this Section 24, and the Supplier shall be liable for any and all breaches of this Section 24 by any such third parties.

- (d) All Confidential Information and all copies thereof, and all materials and documents containing or relating to any of the Confidential Information, whether prepared or developed by Supplier or otherwise coming into Supplier's possession, are and shall remain the sole and exclusive property of Buyer. Supplier agrees it shall not take any action that is inconsistent with Buyer's sole and exclusive ownership of the Confidential Information. Upon completion or earlier termination or cancellation of this Purchase Order, or upon Buyer's demand, Supplier shall: (i) cease use of all Confidential Information associated with or related to this Purchase Order and all copies thereof, and cease use of all materials and documents containing or relating to any such Confidential Information; (ii) at Buyer's sole option, either return to Buyer all such Confidential Information, materials and documents and any and all tangible copies thereof, or destroy said items and certify in writing to Buyer that such destruction has occurred; and (iii) delete and erase any and all electronic or intangible copies of such Confidential Information, materials and documents, retaining no copies, and certify in writing to Buyer that such deletion and erasure have occurred.
- (e) Supplier agrees that it shall not: (i) disclose to Buyer or use on behalf of Buyer any proprietary information or trade secrets obtained from third persons without their authorization; or (ii) bring proprietary information or trade secrets of third persons onto Buyer's premises without the authorization of such persons.
- (f) Notwithstanding anything to the contrary herein, the restrictions set forth in this Section 24 will not apply to any portions of the Confidential Information that Supplier can demonstrate by clear and convincing documentary evidence: (i) are or have become generally available to the public other than as a result of an act, omission or fault of Supplier or any of its employees, officers, directors, agents, advisors or affiliates; (ii) are or have become available to Supplier on a non-confidential basis from a source other than Buyer or Buyer's employees, agents or affiliates, which source is legally entitled to disclose such information to Supplier without confidentiality restrictions; (iii) were independently developed by Supplier without reference or access to any of Buyer's Confidential Information; or (iv) were already rightfully in the Supplier's possession at the time of its receipt from Buyer or Buyer's employees, agents or affiliates.

- (g) This Purchase Order does not constitute or imply a license or other permission to use or practice any of the Confidential Information, except that Supplier may use such Confidential Information solely for the purpose of performing its obligations under this Purchase Order. This Purchase Order does not constitute or imply an offer or promise by either party to agree to any further agreement with respect to the Confidential Information or any other matter.
- (h) In the event that Supplier becomes legally compelled to disclose any of the Confidential Information by subpoena or similar legal process, Supplier shall provide Buyer with prompt written notice of such process so that Buyer may seek a protective order or other appropriate relief, and Supplier shall not disclose any Confidential Information in response to said process until at least fourteen (14) days have passed following the date Supplier provides such notice to Buyer. Supplier shall cooperate with any effort by Buyer to obtain a protective order or other relief. If such a protective order or other relief is not obtained, and Supplier is legally required to disclose Confidential Information of Buyer, Supplier: (i) may disclose only that portion of the Confidential Information which its counsel advises in writing is legally required to be disclosed; and (ii) shall use its best efforts to obtain an order or other reliable assurance that confidential treatment will be accorded to such portion of the Confidential Information that it is required to disclose.
- (i) Supplier acknowledges that the covenants and undertakings contained in this Section 24 relate to matters which are of a special, unique and extraordinary character, that they are reasonably related to Buyer's legitimate business interests, and that a violation of any of the terms of this Section 24 will cause irreparable injury to Buyer, the amount of which will be impossible to estimate or determine, and for which adequate monetary compensation could not be fashioned. Therefore, Supplier agrees that Buyer shall be entitled, as a matter of right and without the need to prove irreparable injury, in addition to all other rights and remedies available under applicable law, to an injunction, specific performance, restraining order and/or other equitable relief from any court of competent jurisdiction, to restrain any violation or threatened violation of this Section 24, or require compliance with or performance of any obligation hereunder, by Supplier and Supplier's employees, officers, directors, agents, advisors and affiliates, and such other persons as the court may find appropriate. In any such action, Supplier shall be responsible for the payment of Buyer's attorneys' fees and legal expenses. Supplier further agrees that no bond or other security shall be required in order for Buyer to seek or obtain such relief, and Supplier hereby consents to the issuance of such injunction or restraining order and to any order of specific performance, or other equitable relief without imposition of a bond or other security.

25. Industrial Offset Credit/Cooperation.

This Purchase Order has been entered into in direct support of Buyer's international offset programs. To the exclusion of all others, all industrial benefits or offset benefit credits resulting from this Purchase Order are the sole property of Buyer to be applied to the offset program of its choice. Supplier shall provide such documentation and information that Buyer or its assignees may reasonably request to substantiate claims for industrial benefits or offset benefit credits. Supplier agrees to assist Buyer in securing appropriate offset credits from the respective country's government authorities.

Supplier agrees to use reasonable efforts to identify the foreign content of goods that Supplier either produces itself and/or procures from subcontractors for work directly related to this Purchase Order. Promptly after selection of a proposed non-U.S. subcontractor for work under this Purchase Order, Supplier shall notify Buyer of the name, address, subcontract point of contact (including telephone number and e-mail address) and dollar value of the subcontract so that Buyer can determine whether to consent to such proposed subcontract pursuant to Section 18 above.

In the case of an international transaction, Supplier agrees that Buyer, its subsidiaries, affiliates or its designees may exclusively use the value of the Purchase Order to satisfy any international offset obligations that Buyer may have with Supplier's country, subject to the offset qualifying laws, rules and regulations of that country.

- (b) Supplier shall maintain counterfeit risk mitigation processes in accordance with industry-recognized standards and with any other specific requirements identified in this Purchase Order.
- (c) Supplier shall immediately notify Buyer of the pertinent facts if Supplier becomes aware that it has delivered, or may have delivered, counterfeit parts or suspect counterfeit parts. When requested by Buyer, Supplier shall provide OCM/OEM documentation that authenticates traceability of the affected items to the applicable OCM/OEM. Supplier at its expense, shall provide reasonable cooperation to Buyer in conducting any investigation regarding the delivery of counterfeit parts or suspect counterfeit parts under this Purchase Order. Supplier shall replace any and all counterfeit parts at its sole expense.
- (d) This Section 26 applies in addition to and is not altered, changed or superseded by any quality provision, specification, statement of work, regulatory flowdown or other provision included in this Purchase Order addressing the authenticity of parts.

Supplier will also take appropriate steps to ensure that no export controlled articles, services, software, technology or technical data can be shipped to a controlled country (or otherwise accessed by unauthorized foreign nationals) without the appropriate export licenses. Where the Supplier is shipping a controlled article, the Supplier shall use a carrier that maintains procedures designed to comply with the Export Control Laws, and provide any required notifications to the carrier that the shipment involves controlled items.
- (f) If the Supplier is a signatory to a Technical Assistance Agreement ("TAA") or Manufacturing License Agreement ("MLA") with Buyer, Supplier shall promptly notify Buyer of any changed circumstances that would require modifying the terms of such an agreement, including any potential violation of the terms of the agreement, any ineligibility to export, any investigation into alleged violations of any of the Export Control Laws, any self-disclosure of potential export controls violations, any addition of foreign personnel to any project covered by such an Agreement or any other circumstances that may affect the Supplier's ability to perform pursuant to the terms of the Agreement.
- (g) Supplier shall immediately notify Buyer if it is or becomes listed on any Excluded or Denied Party List maintained by any U.S., EU or British agency, or if any government denies, suspends or revokes its export privileges.

32. Aftermarket Parts Provisions. By accepting this Purchase Order, for all Products except for those manufactured in accordance with drawings, prints or specifications provided by Buyer, Supplier specifically warrants and agrees as follows:
- (a) For so long as any particular type, model or item of Product sold by Supplier to Buyer is being used by Buyer in production (i.e., it is being used by Buyer in the production, manufacture or assembly of a vehicle, item of equipment or other finished good), Supplier agrees to sell those Products to Buyer for aftermarket purposes at prices no greater than, and on terms no less favorable than, the prices and terms at which Supplier is then selling those Products to Buyer for use in production. Buyer shall be assumed to be continuing to use a particular type, model or item of Product in production until Buyer notifies Supplier in writing that it is no longer using such type, model or item in production.
- (b) At the time Buyer notifies Supplier in writing that a particular type, model or item of Product is no longer being used by Buyer in production, Supplier shall give Buyer an opportunity for sixty (60) days to make one or more "last time buys" of that Product, in such quantities as are determined by Buyer and at the same price that was most recently paid by Buyer for such Product, and on the same terms as were applicable to that most recent purchase. Thereafter, if Buyer wishes to buy additional units of that type, model or item of Product, prices shall be as mutually and reasonably agreed by the parties, and Supplier will furnish Buyer with a quotation identifying the price at which it will sell such Product to Buyer. Each such quotation shall remain fixed and valid for not less than twelve (12) months after the date it is furnished to Buyer. Supplier may not change such Product price during this 12-month period, and Supplier must give Buyer at least ninety (90) days' written notice prior to implementing any price change for that Product after the end of such 12-month period.
- (c) For each particular type, model or item of Product sold by Supplier to Buyer, Supplier shall keep and make such Product (and all parts and components of such Product) readily available for purchase by Buyer for so long as such Product is being used by Buyer in production and

for ten (10) years after the date that Buyer notifies Supplier in writing that such type, model or item of Product is no longer being used by Buyer in production. Supplier acknowledges and agrees that this obligation applies not only to Products that are parts, but also to all parts that are incorporated into Products that are multi-part components or subcomponents. Supplier further agrees that it shall not discontinue the availability of any such Product or part sooner than ten (10) years after the date that Buyer notifies Supplier in writing that such type, model or item of Product is no longer being used by Buyer in production.
